1 Simple Html Page

1.1 Aim

- Design a webpage for your department.
- Utilize paragraphs and lists.
- Create links of the words Wifi and LAN to their respective wikipedia pages
- Insert an image that redirects to the college website
- Change the background color and create a link at the bottom to return to the top

1.2 Code

```
1  <!DOCTYPE html>
2  <html>
3    <head>
4      <title>
5        Simple Html Page
6      </title>
7      <style>
8        body {
9          font-family: Arial, Helvetica, sans-serif;
10         background: #eff1f5;
11         color: #4c4f69;
12         font-size: 1.3em;
13       }
14       body::-webkit-scrollbar { display: none;}
15       .container {
16         display: flex;
17         flex-direction: column;

2 Time Table

2.1 Aim

- Design the class time table in HTML using table tag

2.2 Code

```
1  <!DOCTYPE html>
2  <html>
3    <head>
4      <title>
5        time table
6      </title>
7      <style>
8        :root { --flamingo: #dd7878; }
9        body {
10          font-family: Arial, Helvetica, sans-serif;
11          background: #eff1f5;
12          color: #4c4f69;
13          font-size: 1.3em;
14        }
15        table {
16          overflow: none;
17          border-collapse: collapse;
18          border-color: var(--flamingo);
19        }
20        th, td, tr {
21          padding: 10px;
22          border-top: solid;
23          border-left: solid;
24          border-right: solid;
25          border-width: 2px;
26        }
27        tr, td {
28          border-bottom: solid;
29          text-align: center;
30          border-color: inherit;
31          color: var(--flamingo);
32          background-color: #eff1f5;
33        }
34        .flamingo {
35          background-color: var(--flamingo);
36          color: snow;
37        }
38        .center {
39          width: 100%;
40          height: 98vh;
41          display: flex;
42          flex-direction: column;
43          justify-content: center;
44          align-items: center;
45        }
46        .down {
47          writing-mode: vertical-lr;
48          text-orientation: upright;
49          font-size: 1.4em;
50          letter-spacing: 8px;
```

```

51     color: snow;
52     background-color: var(--flamingo);
53 }
54 </style>
55 </head>
56 <body>
57     <div class="center">

3.3 output

Cats are the best

Cats, with their enigmatic grace and independent spirit, have captivated human hearts for millennia. Their slender bodies adorned with sleek fur, often in a myriad of colors and patterns, exude elegance and agility. From the regal posture of a Siamese to the fluffy charm of a Maine Coon, each breed carries its own unique allure. Their eyes, like orbs of liquid gold or emerald pools, reflect an intelligence and curiosity that seem to pierce through the soul, hinting at the depths of their mysterious nature.

Beyond their physical beauty, cats possess a remarkable array of behaviors and characteristics that further endear them to humans. Their unparalleled agility and reflexes make them formidable hunters, capable of executing acrobatic feats with precision and stealth. Yet, juxtaposed with this predatory prowess is their gentle and affectionate side. Cats have an innate ability to form deep bonds with their human companions, often displaying acts of loyalty and companionship that defy their reputation for aloofness.

One of the most fascinating aspects of cats is their complex communication system. From the subtle twitch of an ear to the melodious purr of contentment, they have mastered the art of conveying their emotions without uttering a single word. Their repertoire of vocalizations, ranging from plaintive meows to thunderous yowls, serves as a means of expressing desires, seeking attention, or issuing warnings. Furthermore, their body language, including tail flicks, kneading paws, and arched backs, provides additional insight into their mood and intentions.

In addition to their charm and charisma, cats also offer a plethora of benefits to their human counterparts. Numerous studies have highlighted the positive impact of cat ownership on mental health, with their soothing presence and affectionate companionship serving as sources of comfort and stress relief. Furthermore, their playful antics and inquisitive nature bring joy and laughter into the lives of their owners, fostering a sense of happiness and well-being. Whether curled up contentedly in a sunbeam or engaged in a spirited game of chase, cats have a remarkable ability to enrich the lives of those fortunate enough to share their company.
